

EVERYTHING YOU NEED TO KNOW ABOUT

7 GDPR DATA PROTECTION PRINCIPLES

Accountability

The data processor is responsible for complying with the GDPR

Accuracy

"Take reasonable measures" to have the most accurate data possible

Storage Limitations

Don't store personal data you do not need anymore

Data Minimization

Only gather and keep the exact amount of data that is needed

Confidentiality

Only people who are processing the data should have access to it

Purpose Limitations

Only process personal data for the purpose it was intended for

Lawfulness

Having a legal basis, being transparent and acting in the person's best interest
